# quad processor

COLOR SWITCHER/BLACK &amp; WHITE PROCESSOR

## Just plug in any four cameras...

The Swann Quad Processor is a low cost and convenient solution for monitoring up to four areas in your home or business at once. Simply connect the Swann Quad Processor to any TV, VCR or Swann security monitor and up to four security cameras, and you can keep an eye on everything from one central location!

Choose between a split screen (4 cameras at once) in black & white or see each camera view individually in color\*. The Swann Quad Processor also features an auto-switch function allowing you to scan between all camera views (including the split screen) in four-second intervals.

### Monitor & record 4 areas in your home or business at once!

#### features:

- > View 4 cameras at once, in black & white, or switch between 4 individual camera views in color\*
- > Works with any TV, VCR, or security monitor
- > Easy to use - plug & play
- > RCA & BNC inputs
- > Ideal for use in:
  - shops
  - offices
  - homes
  - warehouses
